DATA

The data employed in the analysis are drawn from Norwegian administrative registers. Researchers can gain access to the data by submitting a written application to the data owner (see below). The application should include a detailed research proposal describing the goals and methods of the project, a detailed list of variables, the selection criteria to be used, and how the research will be funded. Once received, applications must be certified by The Norwegian Data Inspectorate in order to ensure that data are processed in a manner that protects the personal integrity of individuals surveyed. Conditional on this approval, Statistics Norway will then determine which data one may obtain in accordance with the research plan. Individuals must provide a list of all individuals who will have access to the data along with description of a secure way in which the data will be stored for the period of the research project. Inquiries about access to data from Statistics Norway should be addressed to: mikrodata@ssb.no. More details can be found on the website of Statistics Norway (http://www.ssb.no/a/english/mikrodata_en/).

ANALYSIS

We provide analysis scripts (Stata) for replication purposes. The do-files should be self-explanatory.

- Prepare data : crpupfile3.do

- Perform analyses : anng_revision_main.do

- Draw the graphs : allgraphs.do
